

Petition for Reconsideration, December 16, 2010

From - Thu Dec 16 18:20:58 2010  
Date: Thu, 16 Dec 2010 18:20:14 -0500  
From: [REDACTED]  
To: ir  
CC: Shane Godmere <shane@godmere.net>  
Subject: Petition for reconsideration DA 10-2072

Please find the attached document and supporting exhibits for our petition for reconsideration. We believe that our application is not mutually exclusive with the awarded CP in group 517a. Further we contend both can co-exist without interference. We respectfully request a review of the facts in this matter.

NCE FM MX 517a (DA 10-2072)  
FCC File No.: BNPED-20071012AKB  
Facility ID number: 174682

Thank you for your consideration,

Shane Godmere, Engineer  
Grace Christian Fellowship

RE: Petition for reconsideration  
NCE FM MX 517a (DA 10-2072)  
FCC File Number: BNPED-20071012AKB  
Facility ID number: 174682

In the matter of NCE-FM MX group 517a Grace Christian Fellowship (GCF) would like to petition for reconsideration on our application. With the selection of application BNPED-20071019AIG from the University of Wisconsin in NCE-FM group 517A there is adequate spacing for GCF's application BNPED-20071012AKB to also be granted. Attached is a study that shows that there is no adverse interference to other stations if our application is granted.

The proposed class A station would service the villages of Calumet and Laurium, Michigan. This would serve as a local non-commercial community media outlet. The organization has support of the local community leaders, as demonstrated by the attached letters of support. We believe a grant would be in the public interest.

Thank you for your consideration in this matter.

Petition for Reconsideration, December 16, 2010

December 14, 2010

Dear Sir or Madam:

We would like to support Pastor Merle McGee and Grace Christian Fellowship in their effort to establish a radio station in our community. We recently heard about the rejection of their application and would like to voice our support for their efforts to establish the station. We urge you to reconsider their application and overturn its rejection.

Sincerely,

Thomas Tikkanen  
Executive Director, Main Street Calumet

December 14, 2010

To: FCC  
From: Erik Juntti, co-pastor North Point Church of the Keweenaw  
RE: Grace Christian Fellowship's appeal to establish a radio station

To whom it may concern:

I would like to support Pastor Merle McGee and Grace Christian Fellowship in their effort to establish a radio station in our community. I recently heard about the rejection of their application and would like to voice my support in their appealing that decision. There is no longer a media outlet in Calumet with a local presence. Having a radio station in town would be of great value to our community.

Please review their application for a construction permit and reconsider allowing them to build a station to service our community.

Thank you for hearing out my concern.

Sincerely,

Erik Juntti  
Co-pastor, North Point Church of the Keweenaw

Ladies and Gentlemen,

Copper Country Bible Church has found Grace Christian Fellowship to be a valuable local resource, and very involved in the Calumet and surrounding area. We would urge reconsideration of their radio station application. There is no longer a media outlet in Calumet with a local presence. Having a radio station in town would be of great value to our community, and we feel that Grace would be up to the task. Very Respectfully,

Kyle Knell, Pastor

Copper Country Bible Church

Pastor Tony Laidlaw  
First Baptist Church  
26031 Depot St.  
Calumet Mi. 49913

On behalf of First Baptist Church, we would like to urge the FCC to reconsider the application of Grace Christian Fellowship for an FM radio station. This opportunity for our community would not only benefit local churches, but the entire community. Grace Bible Fellowship has been involved in numerous efforts of community service and would be the perfect agent of management of this form of media. Calumet and Laurium are in desperate need of economic growth and encouragement. An FM station would serve community businesses, as well as local listeners. This would also be an opportunity to meet a need further North in the Keweenaw Community. As you drive north on 41, you lose all local FM stations. An FM station in Calumet would provide local news and weather to all surrounding communities of the North Country. Something we are in desperate need of.

Thank you for your consideration,

Pastor Tony Laidlaw  
First Baptist Church
